

KABA®

G315 Digital Door Lock

Designed artistically for luxury apartments and houses, G315 offers no compromise when it comes to reliability and performance, featuring security, dependability and versatility in attractive designs and finishes. G315 is assembled with superbly engineered components of high-grade materials for long-lasting reliability and its sleek and chic design guarantee to complement your taste and lifestyle.

Benefits & Features

www.kaba.com

You Won't Need Keys Anymore

G315 eliminates issues commonly associated with mechanical keyed locks. It's easy to mislay your keys or accidentally left locked at home. This isn't a problem with G315. You can now unlock your door with a simple touch.

Multiple Locking Methods for Multiple Users

G315 supports three types of secured unlocking methods which include Fingerprint, PIN Code and Mechanical Key Override. Instead of having to make multiple keys for your home; it's easy to program G315 for multiple users. This means that you can easily program the lock so it can be used by trusted friends and other family members without risking your home security.

Robust and Flexible Mechanical Structure with Reversible Handing

Probuck locks are easily reversed for change of hand in the field without disassembling lock case, employing advanced metallurgy and optimal structure design, providing uncompromising commercial-grade quality: tested to over 2 million duty cycles.

Robust and Flexible Mechanical Structure

Employing advanced engineering and optimal structure design, G315 provides uncompromising quality: tested to over 200 thousand duty cycles. Two reinforced deadbolts could be fully engaged by simply lifting the lever upwards.

Award Winning Fast and Reliable Biometric Algorithm: BioSure9.0

At the core of every G315, state-of-art DSP and cutting edge BioSure9.0, one of the world's most powerful and reliable fingerprint biometric algorithms, assure unrivaled user experience.

Simple Installation and Use

G315 is designed for ease of use and installation for new or existing homes. Works as a standalone unit and requires no wiring during installation, eliminating the expensive material and labor costs of installing electrical wiring. User registration and various settings can be done directly at the device and the process is facilitated by voice prompts, which allows every user including children and senior to operate easily.

Anti-Break-in/Damage Alarm Protection

Alarm will go off if anyone attempts to damage the lock or forces the door open.

Wrong Try Lockout Delay Protection

After 3 wrong entries of the PIN code, the lock will go into lockout mode for 15 minutes, which proved to be very effective in preventing even the most determined thieves.

Enhanced Security by Scramble Code for PIN Code Access

You may add in random numbers before your password to prevent any person beside you from detecting your password

Visitor-Friendly with Optional Passage Mode

Expecting unregistered guests? Passage mode is just the answer for you; it allows free access of the secured area when activated.

Mechanical Key Override Protection

In the event of an emergency, the digital door lock can be opened with a mechanical key.

Low Battery Warning and Emergency Power Supply

It warns in case of low battery. Emergency power supply could be used when the battery is completely discharged.

And much more

With all the benefits G315 offers, it's clear to see why tremendous home owners worldwide have chosen the G315 for their homes. It is a smart investment!

Specifications

MODEL	G315
Hardware	
Material	Zinc Alloy
Finishing and Color Options	Silver, Gold
Keypad	Illuminated 12 keys
Mortise Type	Reinforced X5 Mortise
Storage	
Fingerprint	100
PIN Code	10
Mechanical Key Override	3
Enrollment & Verification	
Methods	Fingerprint, PIN Code, Mechanical Key Override
Verification Time(sec)	<1s
Length of password	8 Digitals
Operation Environment	
Temperature(°C)	-10~55
Humidity(%)	10~90
Power Input	8 X 1.5V AA Alkaline Battery
Voice Prompt	Beep
Alarm System	
Low Battery Alarm	Yes
Break-in and Tamper Alarm	Yes
Wrong PIN Code Lockout Alarm	Yes
Passage Mode	Yes
Backup Unlock Mechanism	External Emergency Battery or Mechanical Keys
Door Thickness(mm) Applicable	40~100mm (optional)
Dimension(mm)	
External Body: 310*162*77	
Internal Body: 323*164*72
