

Specification

Wide Voltage	AC90V-235V 50-60Hz
Wide Voltage Driver Power Supply	600W
Light Source System	380 (Philips)
Color Temperature	7900±500K
Color System	Color wheel: 14 + rainbow effect
Pattern System	Pattern wheel: 13 fixed patterns + 1 white light
Focusing System	Electronic focus
Atomization	Features atomization function, achieving a soft light effect
Strobe	Independent strobe effect, 0.5-20 times/second, adjustable speed
Motor	Three-phase motor used on X and Y axes , ensuring high stability of lamp speed and accurate positioning angle!
Dimming Curve	0%-100% linear dimming, smooth and flicker-free.
Beam Angle	0-2°
Channels	16 channels
Light Output Diameter	180mm
Waterproof Rating	IP66
Control Method 1	DMX 512
Display	LCD display, adaptable to different installation positions, 180° rotatable.
Horizontal and Vertical	High-precision three-phase motor, accurate positioning, smooth operation, automatic positioning correction.
Horizontal	540° rotation, 8/16-bit resolution, with fine-tuning
Vertical	270° rotation, 8/16-bit resolution, with fine-tuning.
Housing	All die-cast aluminum.
Lamp Body Dimensions	695*390*326mm
Net Weight	25KG
Packing	Carton
