## 5000W Step Up Down Converter Transformer

This new VEVOR voltage converter transformer achieves 110V/220V bi-directional voltage conversion, applicable to most countries' voltage interchange, so you can bring domestic appliances and use them abroad. It has 8 outlets, supporting up to 8 devices connected to use simultaneously.

## Compatible with Various Imported Appliances Plug-and-Play

Note: For a better experience, the total power of the connected devices needs to be less than 4000W.

Equipped with a 5000-watt rating, this step up down converter offers 3 US NEMA 5-15R 3-Pin output sockets, 3 European Shucko output sockets, 1 USB jack, and 1 Type-C jack to meet the simultaneous use of multiple devices.

## Supports 8 Devices Simultaneously

This step up step down transformer is compatible with most plugs and supports up to 8 devices at the same time, so you don't need to buy an additional socket.

## Design that Suits Your Requirements

Detailed instructions

This voltage converter transformer balances ease of use and security, so you can conveniently carry it with you when you travel to other countries. Multiple security protections make you more secure during use.

## Easy to Use | 7x24hrs Continuous Run

This step up voltage converter allows you to use the overseas appliances normally at home and bring domestic appliances to use abroad. All you need is a power cord adapted to the destination standard.
