

One Step Fiber Optic Cleaver with Auto-Rotating Blade

Features:

One Click to Cleave, one step to finish;

Half-Automatic rotate of blade, Easy-step Operation, High-Efficiency;

Half-Auto rotate blade lifetime up to 2000 times each cleaving point, total 24 cleaving point, blade life up to 48000 times;

Precision cleaved surfaces, Smooth cleaving angle around 0.5°;

Smart anti-fiber breakage design preventing the fiber from damage by the return of blade carriage;

With fiber waste bin to collect the waste fiber shards;

Main body made of aluminum materials, giving high strength and stability. Small, compact size and light weight;

Blade Tungsten Steel Material.

Technical Specs:

Type	Single Fiber
Blade Rotate	Smart Rotate Mode
Typical Cleave Angle	≤0.5°
Cleave Length	0.25mm fiber: 5~20mm 0.90mm fiber: 5~20mm
Fiber Diameter	125μm
Coating Diameter	0.25&0.9mm
Size	63W×56D×56H (mm)
Weight	300g
Blade Life Time	Around 48000 fibers
Blade Point	24 points
Scrap Collector Bin	Yes
Color	Gold
