

Telescopic Pole, 3 sections, 3.8 m

Telescopic Pole, 6 sections, 7.8 m

Description:

High-strength, heavy-duty insulating operating pole with a triangular tube construction and a telescopic adjustment mechanism. Designed for live-line work, offering rapid extension and positive locking without rotating sections.

Features:

Stainless Steel Alloy hook head – corrosion-resistant

Triangular tube structure – each section extends and locks instantly without rotation.

Fluorescent top section – high visibility for night operations; foam-core filling prevents internal moisture condensation.

High-strength aluminium alloy universal connecting fitting – compatible with a wide range of tools and accessories.

Ergonomic grip – provides comfortable, slip-resistant handling and superior control.

Smooth surface finish on all components – easy to clean and wax for routine maintenance.

Technical Specs:

Extended length (m)	Retracted length (m)	Number of sections	Weight (kg)
3.8	1.45	3	1.5
7.8	1.59	6	4.0
