

PHANTOM ELEMENT

The Phantoms are now armed with cutting-edge Nano coating technology, creating an impenetrable shield against the relentless forces of Humidity, Salt Air, and Moisture. Say goodbye to corrosion and damage – this speaker is built to conquer the elements and keep the party roaring!

The Phantom™ Series is an exceptional introductory series of speakers that complement the whole home audio line of frameless speakers.

Built with high-quality materials to withstand the harsh environments in outdoor installations the injected polypropylene woofer is highly damped and lossy, resulting in smoother high-frequency roll-off, reduced beaming and exceeding at mid frequencies. A 1" silk dome swivel tweeter produces a smooth, open, and airy sound. A high-grade crossover utilizes oxygen-free copper inductors, high watt ceramic resistors, and high-quality capacitors.

Phantom Series™ speakers include a magnetic frameless grill with a 2-millimeter reveal. The rimless grill attaches easily and covers the lip. Once installed, no part of the speaker shows except for the grill, allowing the speaker to virtually disappear into the installation environment making the speaker a true labor and time saver.

PP-8-ELEMENT

Speaker Type:	In-ceiling weatherproof
Woofer:	8" Polypropylene
Tweeter:	1" Silk soft dome
Power:	120 W
Grill type:	Frameless, magnetic, weatherproof
Sensitivity:	90dB
Frequency response:	42-20 kHz
Impedance:	8 Ohm
Speaker dimensions:	10.4" x 4" (264mm x 101mm)
Cutout size:	9.9" (251mm) diameter

PP-6-ELEMENT

Speaker Type:	In-ceiling weatherproof
Woofer:	6.5" Polypropylene
Tweeter:	1" Silk soft dome
Power:	90 W
Grill type:	Frameless, magnetic, weatherproof
Sensitivity:	90dB
Frequency response:	52-20 kHz
Impedance:	8 Ohm
Speaker dimensions:	8.9" x 3.4" (226mm x 86mm)
Cutout size:	8.2" (208mm) diameter
